

## PADI Enriched Air Diver Course 2007

### Q: How do you accomplish longer Bottom Time while reducing the risk of Decompression Sickness?

### A: Be an Enriched Air Diver!

#### **There are many advantages of using Enriched Air Tanks**

- Enriched Air gives you more dive time by replacing some of the Nitrogen in the air with oxygen. This means you absorb less Nitrogen during a dive, giving you longer No-Decompression limits and increasing more of what you want - **More Time Underwater!**
- Shorter 'Surface Interval' and you will feel fresher & less tired after a dive
- Reduces the risk of Decompression Sickness (within recreational limits) - the reason why PADI Divemaster & Instructors are diving on Enriched Air tanks

#### Air No-Decompression Limits

- at 18 meters: NDL 56 minutes

#### Enriched Air No-Decompression Limits

- at 18 meters: NDL 125 minutes (based on 36% mixture)

### **So, take the challenge and sign up for the PADI's Enriched Air Diver Course with Scuba Dynamics today!**

PADI Enriched Air Diver course is one of the most sought out specialty courses in the PADI Specialty program. Enriched Air (Nitrox) is the latest tool in our efforts to stay longer underwater (within the recreational limits).

**NOW**, Scuba Dynamics Sdn Bhd is conducting the PADI Enriched Air Diver course at a reasonable price of **RM450.00 per person**, which includes the following:

- PADI Enriched Air Diver manual
- PADI Certification card
- PADI Wall Certificate (issued during our annual Diver's Night)
- Documentation & Registration fees
- Classroom session (2 modules)
- A 20% discount voucher off retail products (except for agent control products)

#### Course Schedule:

- Section 1: Theory - Consists of 2 modules & a final exam (25 questions - multiple choices). The theory section is done through independent study.
- Section 2: Practical application - analyzing tank oxygen content

\*Duration: 3 to 4 hours classroom session (conducted at Scuba Dynamics Center)

\* Actual Enriched Air dives is no longer compulsory upon certification under current PADI Standards
